

ABOUT ADAMA POLYTECHNIC COLLEGE

The start history of Adama Poly Technic College as an educational institution could be traced back to Emperor Haile Sillassie when he laid the foundation stone in 1939, by giving “Nazareth Primary School” as its first name. The last sixty nine years (69 years) of advancement towards its present college status has witnessed several significant transformations. By adopting “ Gelawdiwos’ as its second new name the expansion of the school continued up to grade eight in the 1940’s. Later on with the help of some public funding, the school was able to open grade nine in 1952. In the following years it became a comprehensive secondary school and reached a stage enabling some 64 students to sit for grade 12 National Examination in 1955.

It will not be an exaggeration if one assumes the ‘conception’ of Adama Technique College began in 1976 and became operational with the technical and personnel assistance from the Soviet Union (USSR). However, the integration of vocational training and academic streams under the same management body has no doubt created some acute administrative problems. To solve this problem, an attempt was made in 1971 for the technical separation of the two different streams by giving the name “Hawas Secondary School “and “Adama Tegbareid Technical School “. In 1994-95 further administrative modification was made by assigning two school directors for each stream in one and the same school compound. In the academic year 2000, the academic section (better known as preparatory) is detached from Adama TVET College and The College become one of the leading TVET colleges in Ethiopia.

WHY CHOOSE US?

- Quality Training
- Experienced Trainers
- Conducive Learning and Teaching environment
- Fulfilled Learning and Teaching Materials
- We Appreciate and Recognize creativity and Innovation

WHICH SECTOR DO YOU WANT TO JOIN?

1. ECONOMIC INFRASTRUCTURE

Sector of Economic infrastructure is one of the sector with many and leading departments in the college. The sector is structured with the aim of creating a better future for our trainees and the society by providing economic infrastructure based trainings. The sector has more than 10 departments under it, with different occupation under each department. The followings are lists of our departments that can be classified under this sector.

1. Information Technology

1. Information Technology System Service(Level I and II)
2. Database Administration(Level III and IV)
3. Hardware and Network Servicing (Level III)
4. Information Technology System Management(Level V)

2. Surveying and Drafting

1. Surveying and Special Information Work (Level I - Level II)
2. Surveying (Level III - Level IV)
3. Drafting (Level III - Level IV)

3. Road Construction

1. Basic Infrastructure Operation(Level I)
2. Road Civil Work(Level II)
3. Road Construction and Maintenance(Level III)
4. On site Road construction and maintenance management(Level IV)

4. Urban Land Development

1. Basic Building Construction Work(Level I)
2. Bar Building Construction Work(Level II - Level III)
3. Masonry(Level II - Level III)
4. Onsite Building Construction (Level IV)
5. Finishing Construction Work(Level II – Level IV)
6. Onsite Building Infrastructure (Level IV)
7. Building Construction Management(Level V)
8. Building Electrical Installation(Level II – Level III)
9. Onsite Building Electrical Installation (Level IV)
10. Plumbing Installation (Level II)

5. Road Transport

1. Vehicle Servicing (Level I)
2. Vehicle Servicing Repairing(Level II)
3. Vehicle Engine overhauling(Level III)
4. Automotive Electro-Mechanical Diagnoses(Level IV)
5. Automotive Electro-Mechanical Modification Diagnoses(Level V)

6. Electro Technology

Electro Technology is a one section of economic infrastructure sector related to advanced and determinant technologies in our today's world. Under this sub-sector Training that will equip our students in those technologies will be given with proper equipment and shop. Electro Technology sub-Sector has many occupations under it and training will be provided from Level up to Level 4 (In most cases) or the training might continue till the 5th level(Level V) based on the number of students that will attend for specific department. Occupations under this sector can be classified in the following ways.

1. Basic Electrical electronics equipment servicing (Level I)
2. Industrial Electrical machine and drive servicing (Level II)
3. Instrumentation and Control Servicing (Level III)
4. Machatronics and Instrumentation Servicing (Level IV)
5. Industrial Automation and control Technology(Level I)
6. Basic Electrical Communication and multimedia Equipment Servicing(II)
7. Intermediate Electrical Communication and multimedia Equipment Servicing(III)
8. Electronics and Communication Technology Management(Level IV)
9. Basic Biomedical Equipment Servicing (Level II)
10. Biomedical Equipment Servicing (Level III)
11. Biomedical Equipment Servicing Management (Level IV)

2. SOCIAL SECTOR

Adama Polytechnic Colleges Has many sectors that mainly focus on technical skills and toward fostering the students attitude, skill, and knowledge toward technology and new innovation the college also has a sector in which social sciences will be trained, The Social Sector. Social sector has social science departments Like Accounting and Secretarial Science some other departments.

1. Business and Finance

1. Basic Clerical Works(Level I)
2. Basic Accounting Work(Level II)
3. Account and Budget Support(Level III)
4. Account and Budget Support Service (Level IV)
5. Customer Contract Work Support (Level II)
6. Customer Contact and secretarial Operation (Level III)
7. Customer Contact and secretarial Operation (Level IV)

3. AGRICULTURAL SECTOR

1. Crop Production, Animal Production, Natural Resource Conservation Dev't

1. Basic Agricultural Production and Natural Resource conservation(L-I)
2. Animal Production (Level II-III)
3. Crop Production (Level II-III)
4. Crop Production and Marketing Management(Level IV)

4. INDUSTRY DEVELOPMENT

Industry development sector is a sector which mainly focuses on the development of industrial production and training under the sector is provided based on the need of our students. There are Department and Occupations that will be included under this sector those departments and occupation are

1. Textile And Garment

1. Basic Apparel Production (Level I)
2. Intermediate Apparel Production (Level II)
3. Advanced Apparel Production (Level III)
4. Apparel Fashion designing and technology Supervision (Level IV)

2. Textile Production

1. Basic Textile operation (Level I)
2. Weaving and Knitting Operation (Level II-III)
3. Textile Technology and Production (Level IV)

3. Metals

1. Basic Metal Works (Level I)
2. Machining (Level II-III)
3. Machining Supervision (Level IV)
4. Mechanics (Level II-III)
5. Mechanics Supervision (Level IV)
6. Metal Manufacturing Management(V)

4. Furniture Making

1. Furniture Making (Level I-III)
2. Furniture Making Operation (Level IV)

5. CULTURE, SPORT AND TOURISM

A sector which focuses on Culture, Sport and Tourism. Different departments are open under this sector with different occupations. They are listed as

1. Hotel Management
 - a. Hotel Operation (Level I-II)
 - b. Hotel Operation Supervision (Level III)
 - c. House Keeping Operation (Level III)
 - d. House Keeping Operation an Laundry Operation (Level IV)
2. Kitchen Operation(Level I-III)
3. Hair Dressing
4. Music
